

FIT FAST is intended for people who want to loose weight as well as for those who wish to increase the level of muscle mass in body. The form of easily assimilated and fast to prepare shake makes it perfect solution for people living hectically who have no time for preparation of healthy, balanced meals e.g. at work. Depending on the way of using and relation to daily meals the **FIT FAST** programme allows you to achieve optimal results in weight control. People who want to loose excessive weight should use **FIT FAST** as a substitute for one of the meals in a daily diet. People who wish to increase the ratio of muscle mass in the body should use **FIT FAST** as a supplement of a daily diet by introducing it between regular meals, preferably after intensive training.

FIT FAST program was created by specialists whose aim was to select ingredients of the finest quality which will support our every day diet and body nutrition, and to prepare aromatic and tasty meal in the form of a shake, which will not only facilitate slimming or muscle mass building, but also cleansing organism from toxins and boosting work of all organs and tissues in human body.
